

BALAJI SHANKAR

SOFTWARE TEST ENGINEER | TEST AUTOMATION ENGINEER

SUMMARY

Software Test Engineer with over 2 years of experience in software testing and test automation. Proficient in Python, Selenium, Appium, TestNG, Linux, Git, Jenkins, and CI/CD. Strong knowledge of software testing methodologies, defect analysis, and test automation frameworks.

PROFESSIONAL EXPERIENCE

Working Student - Software / ADAS Test Engineer

Jan 2026 – Present | Mercedes-Benz AG, Sindelfingen, Germany

- Assisting with software validation and testing activities for ADAS and automotive systems.
- Executing regression tests, defect analysis, and log evaluation within Linux environments.
- Supporting automation and reporting tasks utilizing Python and Bash.
- Collaborating with cross-functional teams in agile development environments.

QA System Engineer

July 2021 – Sep 2023 | Tata Consultancy Services (TCS), India

- Conducted software, system, and regression testing for Android and iOS applications.
- Developed and maintained automation scripts using Python, Selenium, Appium, and TestNG.
- Worked within Linux, Git, Jenkins, and CI/CD environments.
- Performed defect logging, root cause analysis, and provided debugging support.

EDUCATION

M.Sc. Electrical and Communication Engineering

Since 2023 | University of Kassel, Germany

- Specializations: Microwave & Radar Systems, Signal Processing, Embedded Systems.

B.Tech Electronics and Communication Engineering

2017 – 2021 | VIT University, India

PROJECTS

Medical Database with Facial Recognition and Blink Detection Using RFID

University Project

- Developed an embedded AI system utilizing Raspberry Pi, Arduino, Python, OpenCV, and RFID.
- Implemented facial recognition and blink detection algorithms.
- Managed sensor data processing and database integration with MySQL.
- Selected among the Top 5 university projects.

CONTACT

Böblingen/Sindelfingen, Germany
